Stuart Grimwood, Cardinal Clinic

Adepteq understood our requirements and developed a system that surpassed expectations. They met the deadlines we'd agreed and were extremely responsive as the spec changed throughout the project. We look forward to continuing our relationship over the coming years

CARDINAL CLINIC CASE STUDY

01

The Problem

Ability to collate all documents and forms relating to a patient on demand as they were paper based and not always in the central filing cabinets.

Category	Risk Score
Category 1: Risk of Self-harm / Suicidal Behaviour	4
Category 2: Risk of Accidental harm	4
Category 3: Risk of Neglect and vulnerability	3
Category 4: Risk to Others	1
Category 5: Risk to Child	Nil
Category 6: Risk of Potential Disengagement	3
Category 7: Potential Infection Control Risk	2

Date / Time	Type	Risk Identified	Measures in Place	Nurse
27/04/2021, 12:00:00	short leave	low risk identified	with family to return to the clinic if feeling unwell	Maria Mathews

Business Benefits

- Easily share content with consultants, GPs and nursing staff

Allergies:
Rate:

The Solution

A SharePoint Online solution where a site is created for each patient to contain personal details, forms (both electronic and scanned) and observations.

Please review the risk on the 14/04/2021.
