

SUMBISSION PORTAL FOR PROFESSIONAL REVIEWS

Technologies used:

SharePoint, Microsoft Lists, Power Apps, Power Automate and PowerBi

Chaymae Rahman, Institution of Civil Engineers

Adepteq have been great partner to work with on a SharePoint development project. They were flexible and understood the requirements immediately. When I needed explanations on some of the features, they were clear and concise which is helpful for SharePoint amateurs like myself! I'm looking forward to working with them again.

INSTITUTION OF CIVIL ENGINEERS CASE STUDY

01

The Problem

The Institution of Civil Engineers (ICE) reached out to Adepteq as they required a method for candidates to upload applications digitally to the ICE portal.

The Solution

Adepteq created a public portal for application submission to SharePoint and capture of candidate information all from the ICE server.

Business Benefits

- No longer use email for this process
- Reporting functionality
- More accurate data
- More convenient for users and admin team
